## MINISTRY OFFERINGS

### RENEWAL WEEK

Renewal Week is a time of encouragement, fellowship, rest, and training for missionaries; married couples, families, and individuals. The topics addressed include stewardship of the physical body, coping with stress, preventing burnout, building relationships, marriage growth, singles issues, and the philosophy and strategy of ministry. ADTIM 1 usually includes a full Marriage Encounter. ADTIM 2 & 3 provide a more intense focus on critical preventable attrition issues. ADTIM = Assessment Development, and Training in Mission aspects of the week.

### MENTORING

The focus of the Mentoring in Leadership workshop is on personal growth, developing the leadership potential in others, and equipping for peer or co-missionary member care. The relational and character issues addressed are those that are often troublesome in missionary life and ministry. An annual two-week workshop may be taken for three graduate credits through Asia Pacific Theological Seminary (APTS) Baguio, Philippines. Abbreviated 3-5 day workshops are presented by invitation in other areas of Asia Pacific and N. Asia. *(Note: This is not the AGWM mentoring program.)*

### RESOURCES

MRAP assists Asia Pacific and Northern Asia missionaries in locating resources to meet personal and ministry needs. A network of dedicated professionals (doctors, counselors, legal and financial experts, and educators, etc.) is available to serve you. A dedicated team prays regularly for Asia Pacific and Northern Asia missionaries and for emergency requests. Eight resource centers with approximately 125 books and videos on subjects relevant to missionary life and ministry are located in strategic centers in Asia and the Pacific Islands. Let us know how we can assist you.

### TRANSITION & CHANGE

Northwest District, Asia Pacific, and Northern Asia missionaries have found this time to be invaluable. Transition and Change seminars are taken before or soon after returning to the States. During the four-day seminar missionaries learn and apply new coping skills for dealing with geographical, environmental, and situational transition and change. They also learn new approaches to transition and change in life, relationships, and ministry.

### MINISTRY TO MK'S

MRAP provides helping resources and support to Asia Pacific and Northern Asia College/Career MK's. CCMK's in the Seattle area may request to be "adopted" by a local family. Local area Bible Studies and fellowship times are envisioned where possible. A "helps" ministry to assist in practical areas like learning to drive, finding a job, developing financial records, and locating a church home is also offered. We seek to establish and maintain systematic contact with CCMK's throughout the US and pre-CCMK's on the field to help them begin to prepare for transition.

## SEMINARS

Be sure to take advantage of being a Missionary Member of the Asia Pacific and Northern Asia regions.
